COME AND MEET THE ELEMENTS

The Megève Collections

This year's Collections have taken inspiration from the elements themselves. Those five fundamentals that are the very demonstration of the forces of nature around us. In this brochure you'll find some inspiring ways to explore the authentic diversity of our traditional mountain village.

Earth

Head deep into the Earth for a return to the roots

The Earth takes us back to the very roots of our region, with its wealth of heritage features, local products and the delicious culinary specialities of our mountains.

From Megève's origins to the protection of our environment and its natural resources.

Fire

A spark that nurtures us at every moment

That flame that makes the heart flare with passionate emotion.

Those summer evenings, be they musical, sporty or cultural, sparkle with light and warmth as we soak up the good vibes.

Air

Reach for the heights
to get the bigger picture

Air, the most subtle and invisible of elements, offers us a sense of freedom as we spread our wings on a dizzying climb to the summit and take in the immensity of nature from up there, above the clouds.

Water

Tap into the source for
a refreshing experience

Water, a fundamental element in the village thanks to the surrounding streams and torrents, is the promise of a nice cool summer, a chance to jump right in and hone the senses for a unique and sensational experience.

Spirit

Awaken your spirit with
the very essence of life

Ether, source of all the other elements, symbolises the space in which they are born to awaken our mind to the very essence of life; a revitalising plenitude that inspires a sense of well-being

Protecting nature, together

For a number of years, Megève has striven to encourage eco-friendly behaviour and approaches. These good practices were first rewarded in 2020, when Megève became one of the first resorts in Haute-Savoie to obtain the Flocon Vert quality label.

You too can help us rise to the major challenges of our era.

Eco-gestures

- Leave no waste behind you. Even if it's biodegradable, take it away to dispose of properly.
- Water is a precious resource that we must protect.
- Close livestock barriers and gates behind you.
- Stay on the waymarked trails. (Note: the markers are different between summer and winter.)
- Respect private property.
- Do not tread across the meadows.
- Do not pick rare or protected flowers.
- Keep your dog on a lead to avoid disturbing farm animals and wildlife, and pick up its excrement.
- Be discreet vis-à-vis other hikers and do not disturb the animals.
- Do not camp without permission.
- Before 15 August, it is forbidden to use a comb to pick blueberries
- Mushroom gathering is limited to 5 kg per day and per species.

Megève and Alcome have teamed up to get rid of cigarette ends!

Help us keep cigarette ends to a minimum in public spaces! Free portable ashtrays are available at the village tobacconists, the Tourist Offices and at the lift cash desks, so hurry, go and collect yours.
